Dear Resident;

We will be replacing the old water main adjacent to your property in the very near future. During the construction period every courtesy will be extended to you, the homeowner, to make sure this project goes as smooth as possible for all concerned. By replacing the pipe, we will be able to provide you with better flow, more volume, and improved fire protection in your neighborhood. This is part of P.S.W.Co.'s commitment to continually update our infrastructure to better serve you, our customers.

Any disruption of service, unless an emergency, will be scheduled and you will be notified before hand. If we disturb any part of your property, it will be restored to its original condition ASAP after construction is completed.

If you have any questions or concerns during this construction period, feel free to contact our Company representative on site, or call our Superintendent of Construction, Nick D'Antonio at 610-430-0747 ext. 5000.

Thank you!

Sincerely,

Mark Heavener

Manager of Operations

PSW
